"Into The Grave"

It's been so long and I'm so bored, I could tear myself
to pieces
The only solution is to go for broke and she'd this
terrible weakness
Pull out the stops and call the shots until I'm one foot
into the grave
Self destruction... I can't wait... use my bones to pave
the way!

Chorus:

Into the grave we go down, go down in flames!
Into the grave... we go down in flames!

Leave the common world for dead, it's for the common
man!
We break away with drunken strength in this suicidal
plan
United in mayhem we charge ahead, raging to feel
alive
For once if not forever... we laugh as we die!
