Time is precious... I should know!  
Do you know how much I've wasted!  
Enough for two... maybe even ten  
So close to the end I can taste it

Tired of this, I've had my fill  
Damn the routine and the grind!  
Bloodshot eyes and yellow teeth  
My friends say I'm losing my mind!

It takes one to know one  
They're just as bad: dreaming of running wild and  
free!  
We'll leave it all behind, leave it for dead  
And seize the opportunity  
To answer to no one  
Like animals, a pack of dogs on the run!

You've only got one shot before they put you in the  
ground  
And pay their last respects  
To a man just the same as everyone else:  
Easy to bury and forget!

But we ain't dead yet, and what in the hell are we doin'  
Talkin' 'bout what we're gonna do!  
I'll be the first out the door and down the road...  
... FUCK THIS PLACE AND FUCK YOU TOO!

It takes one to know one  
You're just as bad: dreaming of running wild and free!  
We'll leave it all behind, leave it for dead  
And seize the opportunity  
To answer to no one  
Like animals, a pack of dogs on the run!
