"Hordes From The Dark Star"

Visit "[Hordes From The Dark Star](#)" on MotoLyrics.com

From spheres of damnation, they rise
Lead by an unrestrained hate
Convinced of pure evil
They terminate the era of light... of light

Fugam victoria nescit

The hordes from a dark star

Hate built up through millenniums
Cursed are the weak
Driven by a malignant obsession
Their grand victory is eternal... eternal

Mors ianua vitae

The hordes from a dark star

Morituri te salutant

The path of men... came to an end
The voyage into oblivion... has just begun
