On the beach,  
In the Sand,  
Moves the vision that a guy could understand.

In the car,  
in the house,  
I feel her movin and I want to check it out.

All my life, she's my girl  
In my dreams, she's my world.  
Take this heart I give tonight,  
Take this love...make it right.  
And when she lifts the shdes to paradise...

Baby's eyes are makin' me ready (baby I'm ready)  
She's too hot for me to belive (she's too hot, she's too  
hot whoo)  
When she walks, I've got to hang steady (hang hang  
steady)  
Love my baby, Little Cheri...who.

Talk about her, paint a picture,  
Should I deluge myself with this mystery.  
Love that girl, she loves her man,  
I belive I'm at the point of no return.

All day long, i can't wait,  
Right or wrong, It's too late.  
Does she want all of me?  
Does she see what I see?  
And when she lifts the shdes to paradise...

Baby's eyes are makin' me ready (baby I'm ready)  
She's too hot for me to belive (she's too hot, she's too  
hot whoo)  
When she walks, I've got to hang steady (hang hang  
steady)  
Love my baby, Little Cheri...who.

Don't cha know I feel kinda shy (shy),  
If you knew her, I'd think you'd know why (why),

Beside her, beside her I'm OK,  
All the finer things ever made that way???

All my life, she's my girl  
In my dreams, she's my world.  
Take this heart I give tonight,  
Take this love...make it right.  
And when she lifts the shades to paradise...

Baby's eyes are makin' me ready (baby I'm ready)  
She's too hot for me to believe (she's too hot, she's too  
hot whoo)  
When she walks, I've got to hang steady (hang hang  
steady)  
Love my baby, Little Cheri...who.

'Repeat and fade'
