

## **Anniversary, The "Devil On My Side"**

Visit "[Devil On My Side](#)" on [MotoLyrics.com](#)

There's beauty inside - there is beauty inside  
The darkest of nights - the black and red lights  
This ???? has been frozen - the gods have been chosen  
They dance in their blood

Your life has been sold - your life has been sold  
For your face looks so old - how your face grew so old  
Near the city of broken hearts - to the city of broken  
hearts  
But we all fell apart - how we all fell apart

We drive with the devil on our side  
We drink the land - it tastes like wine  
I never said my love was true  
I put that in the hands of you

Communication, no communication - just sex and  
frustration  
You're killing, you're killing, you're killing, you're killing  
You're a killer kid, you are a killer kid  
But you did what you did - oh you did what you did

We drive with the devil on our side  
We drink the land - it tastes like wine  
I never said my love was true  
I put that in the hands of you

There's beauty inside - there is beauty inside  
The darkest of nights - the black and red lights  
At the tip of your head - it's black and it's red

How does it feel to be dead? [x4]  
I know how it feels to be dead [x7]
