Pick up the pieces
Look what you've done to us
Sick and tired of your bullshit promises
Sick and tired of your bullshit promises

And it happens all the time
Yes it happens all the time
Will the ones that you love let you down?
Do you have to go right now?
Do you have to go right now?
Do you have to go right now?
Do you have to go right now?

Pick up the pieces
Look what you've done to us
Sick and tired of your bullshit promises
Sick and tired of your bullshit promises

And it happens all the time
Yes it happens all the time
Will the ones that you love let you down?
Do you have to go right now?
Do you have to go right now?
Do you have to go right now?
Do you have to go right now?
