Why don't you shut your fucking face..

SHIT!!

As I hold you from your tongue

Every word you fucking spit

That was shat from your lungs

Were all fucking wasted

You told me all this shit

Now I feel so stupid that I wish

You don't exist

Wish fucking granted..

OH.. Shut your face..

It's only just begun

My heart is throbbing as I

Do this just for us

With a smile on my face

What will we ever be

No one will ever see

What will we ever be

When will we ever be the same.

With our bodies, buried, 6 feet.

I will never give up

When will you say enough.

Will we ever be the same?

I wish you don't exist, you took this for granted.

I will never give up today. You're not the same.
