Agnostic disbelief in self
Nihilism vacuity calculated
Fatalist disbelief infuriated
Infinite contradict reality

A problem has occurred in systematic parity
I rationalize the knowledge of insanity
Knowing nothing coherent infinite reality
Convergence of justice in the path of sanity
Self conceived thoughts of meaningless profanity
Amputated soul and self consuming spiral
Psychopathic gestures in realms of morality
Uncassing of skin to overcome mortality.

Parable of Insanity

Parable of Insanity

Parable of Insanity

Dissolution of Humanity

Now I know I am the iota of this life
Which seems to exist but never was alive
Ominous gestures I seek halcyon
Quest of meaning I lost my cause
Fatalist disbelief amalgamating creed
Parable of insanity amorous quest
