Bastard, you spoke to me by lies bleeding out
Severed thoughts by crimson tears created - lurid
angels
Feel the power of devastation - carve up the eternal
ones

Chorus:

Revocate me - for all I cover the stars
Revocate me - for all I kill the whores

Longing for my last breath - erasing my aura
Decapitating angels in my fantasy - carving up her
womb

Self-sacrificing victim - weak martyr
The grand force of stellar caves
Bleed into the cell of inhuman victims

Chorus

Bleed the temple of azure and the catholic wisdom -
sever
Your flesh
Forcing children to mutilate themselves

Chorus
