Ke ksefilizo tis zois mu to vivlio  
Vlepo na klini empros mu o orizontas  
Mes stin omihli ki etsi monos paralio  
Fevgo sti nihta, tin kardia mu vrizontas

Den fovame tus allus, mono emena fovame  
Me skotonun tis nihtes, oso akoma thimame  
Apo agapes hamenes ki apo lathi dika mu  
Tin kardia mu tin vrizo, pu den ise konta mu  
Den fovame tus allus, mono emena fovame  
Me skotonun tis nihtes, oso akoma thimame

Anamesa mas to skotadi ke i tipsis  
Ke pos na pume logia pu den ta 'pame  
Tha 'thela apopse sto kormi su na me kripsis  
Ke na su leo pio poli agape me

Den fovame tus allus, mono emena fovame  
Me skotonun tis nihtes, oso akoma thimame  
Apo agapes hamenes ki apo lathi dika mu  
Tin kardia mu tin vrizo, pu den ise konta mu  
Den fovame tus allus, mono emena fovame  
Me skotonun tis nihtes, oso akoma thimame
