[BUFF-ONE]

Well it's the B-U-F-F dash O-N-E

Asking y'all to please get your vibe on with me

[Vitalo]

And it's the V-I-T-A-L-O-O-O-O

Hit a vibe with y'all now and make you say hello

[14KT]

What up though, and if y'all didn't know it's me

And I go by the name of 14KT

[all]

And it's the Mic League right - right -right - right

(Showing how we vibe)

[BUFF-ONE]

You call that genius? It's more like the stroke of ignorance

And I'll be more than happy to fix those broken sentences

The only problem is (what); they're blowing in the wind
And you can't pick up the pieces cause you don't know where to begin

Start with that main organ a few inches below your chin
You hear a beaten but you don't know what coast you're listening

It says -- "Fella you must destroy

Those thoughts that got you running around like your mama don't love you boy"

I'm just keeping it real, but real to me -

Is not a real emcee but a real human being, and

We do the things that seem to get applause

It's called hip-hop, and we rockin for the cause

Not the kind of rock that fiends abuse -

The kind of rock that make your speakers move

What side you claim, you don't need to choose

We all the same, all my people groove

Cause when it's all said and done we dot the i's and cross t's

Y'all gonna know this cat they call ???

Make the names household, y'all gon see
But for now just vibe with me

[Chorus]

We gon represent the Midwest even though we been
gooooooone

Let's rise up together, we can all stand taaaaaaall

We spent some time away, but the connection stay
stroooooong

We know we ownin supporters cause we be vibin off
y'all

[Vitalo]

?? "Your daddy plugs whites" ?? spit the crowd, make
them participate

Improvise, its ok, you'll make mistakes

Don't blame the soundman, the DJ got breaks

Why don't you utilize the crowd and prove the vibe in
this place

Hold on dog, the reason I survive this long

I'm age sported in dialog, and word delivery

Perseverance - that's like my greatest attribute

And saying that "I'm dope" is a lie, then I go out and
smack em (come here)

The truth come out the Himalayas, with a ??? and a
snaggle tooth

I'm takin y'all way back (WAAAAY BACK) rocking white
jumpsuit abs and proof

Love or hate, y'all can take your pick

We've seen it all from plagiaristic racist hicks to O.D.'ed
raver chicks

Disconnecting cables, freestyling to the fader clicks

My favorite is - leaving tour stages cause it pays the
rent

The eight energetic, with eight thousand ways to spit

Thanks for the wait, yo we appreciate it

[Chorus]

Find your life is ??? while I recite this sooooooong

Tell your girl is fly and your kids that crime's
wroooooong

We keep the dogs hype and the ladies head boooooob

The League stays in the job when we be vibin off y'all

[14KT]

Yuh yall, it goes (UH UH UH OOOOH)

Let-let me know is y'all with me (WITH MEEE)

Yo I'm ready to rock, is y'all ready to rock? (YEAH)

I'm sayin if, if y'all ready to rock then, (ahhhh...)

I might as well then

Spit my patented hype sentences to finish this

I got no choice but to take this back to genesis
With peer ethic, haggling it like Tom Chambers double-
pumper Lakers vs Celtics
Y'all know the half-steady craft the raps til I hear the
extra hand clap
Then see fans stack a lease the gold LP ???
Back to back -- blows to sold out shows
To show that we love ?master glow?
It's all for hip-hop, nothing else can match the vibe of
trying to switch spots
As big as it's got, we raise it to an infinite notch
To see them arms flop Reggie Miller fight after drunk
shots

[Chorus]

We go on and on and onnnnn, on and on and onnnnnn
Keep your hands to the sky, we trying to see how
loooong
We stage diving, climbin speakers like King Kooooong
Yeah, gettin at shows, cause we be vibin off y'all

We go on and on and onnnnn, on and on and onnnnnn
Keep your hands to the sky, we trying to see how
loooong
We stage diving, climbin speakers like King Kooooong
Yeah, gettin at shows, cause we be vibin off y'all

[Adlibs to the end]
