keeping up with the joneses keeps you keeping on  
as long as you have the will to get along  
and what you do for you is never wrong  
so don't you worry, don't you worry  
and i would never give it up  
as long as there's time still ticking on the clock  
but when your pretty face won't be enough..  
now won't you want to won't you want to?

you're wearing your courderoys and your diamond  
tooth  
but you couldn't relate to the girl with the silver spoon  
the lies that you telling me are always true  
it's true  
you made a fool of me for believing you

so keeping up with the joneses keeps me hanging on  
as long as i have the will to get along  
and what i do for you is always wrong  
but don't you worry, don't you worry  
coz i would never give it up  
as long as there's time still ticking on the clock  
but when your pretty face won't be enough  
now won't you want to, won't you want to?

i love you the most when you are fast asleep  
and whatever i do for you im still the creep  
i realise that i'm not good enough, it's tough  
a sensitive man in a world that don't give a f\*\*k

so keeping up with the joneses keeps me hanging on  
as long as i have the will to get along  
and what you do for you is never wrong  
so don't you worry, don't you worry  
coz you would never give it up  
as long as there's time still ticking on the clock  
but when your pretty face won't be enough  
now won't you want to, won't you want to?

now even your courderoys have faded through  
and when you're walking away, well i think it's a better  
view

the lies that you tell yourself are always true, so true  
and you keep on talking til your face is blue

so keeping up with the joneses keeps you hanging on  
as long as i have the will to get along  
and what you do for you is never wrong  
so don't you worry, don't you worry  
and i would never give it up  
as long as there's time still ticking on the clock  
but when your pretty face won't be enough  
now won't you want to, won't you want to?  
don't you want to, don't you want to?
