simplicity, complexity
i wanna be electricity
complexity starts with just a seed
why must you be electricity

off to the side
signaled by the sound
i wanna turn away
i wanna turn around
i feel it in my feet
i feel it in my hands
i don't wanna go
i don't understand

i hate you,
i hate you.. hate you

and i… AAAHH!!!

i don't wanna go, i don't
understand
i don't wanna go, i don't understand

AAHHH!!!

i don't wanna go
i don't understand
i don't wanna go
i don't understand

you don't wanna go
you don't understand.
you don't wanna go
you don't understand.

simplicity, complexity
i wanna be electricity
complexity starts with just a seed
why must you be electricity

maybe you see me
maybe you don't

maybe right through me
to what i won't
it's in the empty spaces
that you can't see
what exactly i am
what i could...
