I wanted to be like everyone
But nobody understands me like you
So work it out
Cause when you're around I feel like this
Maybe it's just you make me crazy
I'll work it out

I don't need no sympathy
Baby I worked it out

Cause it's real when you see me
Only you can free me
Or I'm here by myself
And it feels like it could be
Should be all that really matters
I'm ready to fly... with you

See in your face a light in you
Said all the things I needed to you
So work it out

The way that you walk and call my name
Give me a smile, don't play that game
I've worked you out

I don't need no sympathy
Baby I worked it out

Cause it's real when you see me
Only you can free me
Or I'm here by myself
And it feels like it could be
Should be all that really matters
I'm ready to fly

I just close my eyes
And fly with you my darling
Up into the sky
Where love can set you free
Take my breath away

I wanted to be like everyone
But nobody understands me like you
I've worked it out

Cause it's real when you see me
Only you can free me
Or I'm here by myself
And it feels like it could be
Should be all that really matters
I'm ready to fly... with you
