All the way through the ocean inside
The question of why we ended up where we are
Found a way to ascend to my mind
And change the direction I go in this world

From that point on
From that point on
The answer sounded better
From that point on

In every wave or direction we go
To answers that pull us closer to find
Out there where it's far from what we know
Deep into that great outer space, outer space, outer
space

From that point on
From that point on
The answer sounded better, yeah
From that point on
From that point on
The purpose came together
From that revelation I found my fate
On the ocean waves forever, yeah
From that point on
You were gone and then you were there
Now I don't
Know if I care
What's of use of you way out there
Now I don't
Know if I care
Know if I care
Know if I care

From that point on
From that point on
The answer sounded better, yeah
From that point on
From that point on
The purpose came together
From that revelation I found my fate
On the ocean waves forever, yeah

From that point on
From that point on
From that point on
From that point on
