

## Revis "Spin"

Visit "[Spin](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I can see you're inner motive  
When you wear it on your face  
Indisposed to the world  
You won't let yourself be saved

You're the hand that spins my revolver around when  
You push me away  
You're the hand that spins my revolver around when  
You push me away

On the waves of an ocean  
I'm a space God in the rain  
In the arms of devotion  
Where you never found your place

You're the hand that spins my revolver around when  
You push me away  
You're the hand that spins my revolver around when  
You push me away

You need no one to spin your revolver  
So go and get my gun  
You need no one to spin your revolver  
So go and get my gun

You're the hand that spins my revolver around when  
You push me away  
You're the hand that spins my revolver around when  
You push me away

I can see she's falling faster, running to her own  
disaster  
You push me away  
I can see she's falling faster, running to her own  
disaster  
You push me away
