Sexy moves...

... In shadows you hide

Hysterical grooves...

... Fascinating, charming

You may never reveal me your secrets

So 'better be aware of them...

Or someday you' ll confess them for your life!

Carving a headline

Always casting back

Speculating as if I didn't have a choice

An old burden for me,

These two-edged tales

In which one step to madness is all

I'll never fear trusting no one

I'll disappear it won't take long

I won't regret heading on

Chilly night did not foretell:

"False efforts in her eyes"

Or it could be that I can't take it:

"Sharing love, sharing prizes"

And then I see beyond reality

And then I ratify through a poisoned mind

(A brainwashed's pride)

If that's so, I'll never know... No!

(Wandering away... wondering why...)

So I will fear: I'll build solid walls

('Cause) Excessive freedom may destroy homes

I won't forget... They just won't let me

And I still bear that Old Burden

It makes me feel... Makes me feel touched

So I realize: maybe everything's backwards...

And there will come a time to be back home

(Where the rain is pouring down)

In the meantime, I'll be waiting for the night!

Healing in the dark!
