Time and time and time again
Tossing and turning and freezing and burning
Time and time and time again
Another bad dream and another dead end

Someone, somewhere wake me up
Someone, somewhere wake me up
Someone, somewhere wake me up
Someone, somewhere wake me up

Time and time and time again
Same old story till the night time ends
Time and time and time again
Same dark covers and same [unverified]

Wake me up

Time and time and time again
Wake up screaming and wake up dead
Time and time and time again
Wake up sweating and out of my head

Someone, somewhere wake me up
Someone, somewhere wake me up
Someone, somewhere wake me up

Time and time and time again
I'm waking up shaking and waking in front
Time and time and time again
Same B movie in black and white

Someone, somewhere wake me up
Someone, somewhere wake me up
Someone, somewhere wake me up
Someone, somewhere wake me up
