Ahh
Agony

Pain is my name
Dancing on the edge of a nervous breakdown
Dancing on the edge of a razor blade
Desperately seeking for relief

I just let go all that holds me back
I'm in free fall and nothing holds me back

The automatic pilot has no grief
Desperately seeking for relief
Even when it's all over, we still believe

I just let go all that holds me back
I'm in free fall, nothing holds me back

I just let go all that holds me back
I'm in free fall, nothing holds me back

Desperately seeking for relief
Even when it's all over, we still believe
