Ugliness, leprosy,  
Pestilence on you!

You! I'd hang you  
And you! I'd cut your head off, turn out adrift  
And kick it on a pavement  
That one? I'd drown you in the blood of these two  
Cannot listen to you!  
It twists me, when I have you in view  
And I feel like vomiting when I think of you!  
You're all are right  
But live me alone, disappear!

Here the worlds become mixed  
Borders interweave  
Into dead rolls of events, growing more and more  
Each moment bigger with new threads

To be worth dying I'm seeking still  
But now I'm loosing my powers

Tonight the monument of everlasting dowry  
Crumbled into pieces on the crystal floor  
With a dull crash everything will tumble down  
Now I know  
Just the time is needed  
To be back from being desirous of truth  
Then just melt into nothingness

I saw the light through the mists  
Abated  
To be worth dying I'm seeking still  
But now I'm loosing my powers

Now I'm watching their blood flowing  
It's dirty and disgusting  
Nevertheless it's an awesome feeling to smell it's  
stench  
To see, that these ones, who left  
Are afraid of it!

Galleries of horizons melting into dusk  
Flower-like glares and shadows withering  
And blossoming again

Spaces drowning in nothingness  
Rest in pain, all of you!
