I can't deny it, I fucking like it.
It brings on confidence and courage that I lost.
I turn into it, it helps me through it, until I lie awake and
contemplate it all.

You can't break me.
Taking hold of it all.
I've finally gone straight down.
I can't deny it, I lie and loathe.
I've finally gone straight down.
I can't deny it, I lie and loathe.

I know I hate you, I can't escape you.
You bring me emptiness and nothing I've become.
I can't resist it, I wouldn't miss it.
It's finally coming out, the darkness and the cold.

You can't break me.
Taking hold of it all.
I've finally gone straight down.
I can't deny it, I lie and loathe.
I've finally gone straight down.
I can't deny it, I lie and loathe.

Loathe, you fucking loathe.
You fucking loathe.
Loathe, you fucking loathe.
You fucking loathe.
You fucking loathe.

Loathe.

I've finally gone straight down.
I can't deny it, I lie and loathe.
I've finally gone straight down.
I can't deny it, I lie and loathe.

You fucking loathe.
You fucking loathe.
You fucking loathe.
