Knuckles to the ground hear that sound it's your head  
ringing  
Silver bullet shells give 'em hell it's a war bringing

Spitting blood in the cold out here  
I'm ready to blow  
Will probably down to the bone

Take 'em out  
Hit the floor you're ready  
Take 'em out  
Gonna break every levy  
Take 'em out  
Here it comes are you ready?  
Take 'em out

Silence in the night it's a hide of the moon  
Breaking calm before the storm it's a call of the  
undertaking

Spitting blood in the cold out here  
I'm ready to blow  
Will probably down to the bone

Take 'em out  
Hit the floor you're ready  
Take 'em out  
Gonna break every levy  
Take 'em out  
Here it comes are you ready?  
Take 'em out

You better brace yourself  
No one can save you now  
You better brace yourself  
Right now, right now  
You better brace yourself  
The walls are coming down  
You better brace yourself  
Right now, right now

Right now, right now  
Right now, right now  
Right now, right now  
Right now, right now

Take 'em out  
Hit the floor you're ready  
Take 'em out  
Gonna break every levy  
Take 'em out  
Here it comes are you ready?  
Take 'em out
