In the middle of you is where I wanna be  
making love  
Right in the middle of you is where I need to be  
giving it up,  
uh baby come on lemme do my thing  
To you,  
uh baby lemme lemme do the thing  
to you.  
In the middle of you is where I wanna be  
making living things right in the middle of you is where  
i need to be  
giving it up oh  
I wanna stay in it, I'm gonna stay in it  
Like my life depends on it  
My life  
Depends on it  
In the middle of you is where I wanna be  
making love  
Right in the middle of you is where i need to be  
Uh baby come on lemme do my thing to you  
Uh baby lemme lemme do the thing to you  
I wanna stay in it oh  
Like my life depends on it  
I wanna stay in it  
I'm gonna stay in it  
In the middle of you is where I wanna be making love  
right in the middle of you is where I need to be making  
love  
In the middle of you is where I'm gonna be making love  
Right in the middle of you is where I need to be  
uh baby  
Lemme do my thing
