Take me away from the world where I know your face  
Time was I used to believe we were in the same place

Deep water calls my name  
Pulls me under  
Soothes my pain  
Deep water in my veins

Find me confused but sincere in the words I say  
I've sailed the waves of my fears when I lost your faith

Deep water calls my name  
Pulls me under  
Soothes my pain  
Deep water in my veins  
In my veins

If you follow me  
You'd weigh me down  
I'd carry you  
You'd watch me drown  
I'll save you  
But you're no longer around

You're not a part of my song  
You're not a part of my song  
You're not a part of my song  
You're not a part of my song

Deep water calls my name  
Pulls me under  
Soothes my pain  
Deep water in my veins
