Now it's time to say goodbye
I fly away tonight
I promise, I won't let you cry
I'll miss you
Can it be possible
To be away from you?
You know, for me you mean so much
Without you life is just
A never-ending emptiness
I'll miss you
Can it be possible
To be away from you?
Time, time to say goodbye
I fly away tonight
I'll miss you
I'll miss you
I'll miss you
To live without you
Is as difficult as to live together
Life can be so hard sometimes
But I don't know what to do
But there's one thing I know for sure
Our destinies are linked forever
We will meet again one day
With start again tomorrow
But until then I know for sure
I'll miss you
It will be love again
Nothing will ever change
Time, time to say goodbye
I fly away tonight
I'll miss you
I'll miss you
I'll miss you
Time, time to say goodbye
I fly away tonight
I'll miss you
I'll miss you
I'll miss you
