All my life i've been lookin for a rainbow  
I was startin to thick that i was colour blind  
You walked in the room and there's my pot of gold  
And i can just leave everything behind  
All this time i've been runnin round in circles  
I was startin to think that i would lose my mind  
But you came along and pulled me from the danger  
Its a merry go round and i don't wanna get off this ride.

You got to me without a warning  
You got to me when i had nowhere to go  
Now i see the colour in the night  
In black and white  
I can't remember how i used to be  
And i can't get outta bed but i can dream  
You got to me  
You got to me

All good things must come to those who wait for  
For every good reason there's gotta be a very good  
rhyme  
All my life i've been tryin to find an answer  
And now i know i have to take my time

You got to me without a warning  
You got to me when i had nowhere to go  
Now i see the colour in the night  
In black and white  
I can't remember how i used to be  
And i can't get outta bed but i can dream  
You got to me  
Maybe it was just the way you held me  
When my world was hangin by a string  
Maybe it was just the way you knew me  
When i didn't know myself  
And everything felt  
Like Hell

You got to me without a warning  
You got to me when i had nowhere to go  
Now i see the colour in the night

In black and white  
I can't remember how i used to be  
You got to me without a warning  
You got to me when i had nowhere to go  
Now i see the colour in the night  
In black and white  
I can't remember how i used to be  
And i can't get outta bed but i can dream
