Hey, guys, can't you see
Rock is a crime?
We're bullets in your ears
And you will cry when we collide

You better watch out

You'll never
Get better
Accept it'll last forever
You'll never
Get out alive

And if you want to join the family
You shouldn't give up that easily
Do you really want to join the family?

It's time for us to change the world,
It's time for us to change

You better run
You better hide
'Cause we're the Mafia
The rockin' Mafia

Rock drowns people
Down the river side
It's gonna hunt you
Down 'bout every single time you lie

You better watch out
