"Ain't Dead Yet"

Visit "[Ain't Dead Yet](#)" on MotoLyrics.com

People say this town's got a one note melody
Even so I'm still gonna sing her song
Driving through you might not think
There's much to see
Visitors they never stay too long

Born and raised on gravel roads I was
Hitchhiking to get around
Always got where I wanted to be

And this place'll be my home until I die
And I ain't dead yet

You're making it okay
But you're a long way from home
So you still remember where you came from
Chasing rabbits

Huntin' them girls in our highschool
Now you hardly ever get the time to phone

Know the line where they say home is where you make
it
That's someting I can't believe
I can't understand how it could ever be better than here

And this place'll be my home until I die
And I ain't dead yet

And I ain't dead yet
And I ain't dead yet

People say this town's got a one note melody
As you can see I'm still here singing her song
