"Stay"

A tide inside your heart
Keeps rising in the dark
Surrounds you like an ocean
And you can't keep from going under
Somewhere in the deep
I find you half asleep
'Cause I will never leave you
I will not forsake you

[Chorus:]

I will stay
Here with you while you fall
I won't say
Anything, anything at all
I will stay

When all the empty words
Won't take away the hurt
Even everything is broken

All the wounds are open
I'll be here
A shoulder you can cry on
A friend you can rely on
In between the shadows
Where no one else will follow

[Chorus:]

I will stay
Here with you while you fall
I won't say
Anything, anything at all
I will stay

[Repeat]

[Chorus:]

I will stay
Here with you while you fall
I won't say
Anything, anything at all
I will stay
