All my life I've been lookin' for a rainbow
I was startin' to think that I was colour blind
Then you walked in the room and there's my pot of gold
And I can just leave everything behind

All this time I've been runnin' 'round in circles
I was startin' to think that I would lose my mind
But you came along and pulled me from the danger
Now it's a Marry-Go-Round and I don't wanna get off this ride

You got to me without a warning
You got to me when I had no where to go
And now I see the colour everynight, in black and white
I can't remember how I used to be
And I can't get out of bed when I can't dream,
You got to me
You got to me

All good things must come to those who wait for,
For every good reason there's got to be a very good rhyme, yeah
And all my life I've been tryin' to find an answer
And now I know why I haven't in my time

You got to me without a warning
You got to me when I had no where to go
And now I see the colour everynight in, black and white
I can't remember how I used to be
And I can't get out of bed when I can't dream,
You got to me

Maybe it was just the way you helped me
When my world was hangin' by a string
Maybe it was just the way you knew me
When I didn't know myself and everything felt like hell

You got to me without a warning
You got to me when I had no where to go
And now I see the colour everynight in, black and white

I can't remeber how I used to be
You got to me whithout a warning
You got to me when I had no where to go
And now I see the colour everynight in, black and white
I can't remeber how I used to be
And I can't get out of bed when I can't dream...
