"Forever Young"

From now I'll promise myself.
All the begin is yet to come.
I was born only now.
Come out and play, forever young.

If you're covered in the dark.
I will be your moonlight.
There's nothing to be afraid.
Come out and play, Forever young.

And I do beleive so,
my sorrow will change my joy.
And I do believe so,
but it's very amusing.
And I do believe so,
our dreams really come true.
There's nothing to be afraid.
Come out and play.

I can do.e
You can do.
Forever young, it's our energy.
Forever young.

Let's be glad to break in the sunshine.
Let's be glad to be standing here.
Let's be glad to be able to see you
