"Visits To You"

Visit "[Visits To You](#)" on MotoLyrics.com

Visits to you are suddenly new
and suddenly everything's sacred
I've been here before
Will I be here again?
Please tell me you'll never be taken

Is this another time
Or is this the last time
How much more time
When will time take away my visits to you

Living with this, holding you hand
Knowing I'll have to let go soon
Living right now and right now and right now
Knowing I'll soon be without you

Is this another time
Or is this the last time
How much more time
When will time take away my visits to you

And when you go where your going
Where will you be going
I know I'll keep going
On my visits to you

Is this another time
Or is this the last time
How much more time
When will time take away my visits to you

Is this another time
Or is this the last time
How much more time
When will time take away my visits to you
When will time take away
When will time take away
When will time take away my visits to you
