Shut up get out of here.
Don't try to dry these tears.
I've never thought of me and you my dear.
Shut up get out of here.
You've got to lose your fear.
I know your mom will cheer you up my dear.

Shut up get out of here.
Why don't you disappear.
I never thought of me and you... my dear.

Me.. I'm a nice cold angel, and your a fool for love.
You look like George the second,
and you wern't good enough.

Addicted to my body.
You dream to fit and and,
and after all why don't you understand.
Shut up get out of here.
Don't try to dry these tears.
I've never thought of me and you my dear.
Shut up get out of here.
You've got to lose your fear.
I know your mom will cheer you up my dear.

Shut up get out of here.
Why don't you disappear.
I never thought of me and you... my dear.
