You gotta have style, class and flair...
If you wanna make it anywhere
You gotta grab it girl
Gotta get it, gotta grab it, gotta get it, gotta get wit it
Grab it girl!

Gotta get it, gotta grab it, gotta get it, gotta get wit it

Come on girl, give it a twirl
Come on girl, raspberry swirl
Come on, get it, ride it, ride my tilt-a-whirl

Tearin up the scene
Latex daydreams
Candy-coated screams
Don't you know what I mean?

Tearin up the scene, latex daydreams

Body, Makeup, Eye's and Hair
Hit the street and make them stare
Delicious legs to carry me
My lovers come in twos and threes
Get on your knees
And give me what I need

This is the day we need to seize
This is the day we need to believe
