"We are the Future"

Oh My God

Dress it up
It's all been done
Polish the plastic
Repeat, Rerun
Coochie cutters
Engine sputters
Skin, Grin, Graph
Masquerade

Masquerade, Mass grave
Hand Grenade

Prostitute-driven
Toll booths
Spoonful right
Small truths
Everyone let loose
Seduce and abuse me
Ignite and defuse me
Promote and produce me
Just Doctor Suess me

I don't give a fuck
I just think, thank, thunk
I don't give a fuck
I think thank thunk

We are the future
We are the puncture
We are the blank stare
The teddy bear
In his underwear
Staring down his demons
Wearing out his welcome
We welcome you to hell, so

Hold your tongue

Walk don't run
That's no fun
We are the ones
Your Z-list zeitgeist
Your Z-list zeitgeist
And I just might...

Seduce and abuse you
Ignite and defuse you
Promote and produce you
Just Doctor Suess you

I don't give a fuck
I just think, thank, thunk
I don't give a fuck
I think thank thunk

Americana red wagon
Filled with shit
Greatest hits, top 40
Chips on my shoulder
Older, older, fire smolders
Everyone let loose
Seduce and abuse me
Ignite and defuse me
Promote and produce me
