Just A Love Song

Walter Murphy
Christian Bautista

Here we are again and words are hard to find

But I guess that never was my style

All I have to offer is my song so I play it well

'Cause it's all for you

It's just a love song

And I will sing it all for you

Just a love song

A simple melody for two

But to me it sounds just like a symphony

And when the words have come and gone

My love will linger on for you

Hope you'll understand how much you mean to me

All the ways you've brought me happiness

Just to say it isn't quite enough

So I'll play it well

And I hope you'll see

It's just a love song

And I will sing it all for you

Just a love song
A simple melody for two
But to me it sounds just like a symphony
Just a love song
Just a love song for you
It's not easy for me baby
I know it's hard to understand
I get that feeling everytime I try to say
I love you
All the feelings I have locked inside my soul
All the magic you bring out in me
You're my inspiration my every dream
So listen well
and I think you'll know
