# "Crystal Moonlight"

Lonely vibration of pure and divine  
Energy trapped in dead silence  
Tell about feelings now lost in a time  
Forgotten by all men

Starfire, light up his unholy words  
Prophecy kept by the ancients  
And then reveal the last fate of all  
The world needs to know

Presenze insane  
Vane verita'  
Spettri d'arcani mondi  
Cercano al di la'  
L'al di qua'

(Chorus)  
(Moonlight)  
Take my emotion now  
(Moonlight)  
Never forgive me

(Moonlight)  
Romantic shade of the  
(Moonlight)  
May you reflect  
The crystalline glare of my fate

Thousand and thousand of wandering souls  
Cry for the lust of a new life  
Damned to ascend but to come back again  
For great will of revenge

Aeons infected, merciless space  
Tyrants of worlds now colliding  
I am the gateway, the seed of your mind  
The truth and a lie

Presenze insane  
Vane verita'  
Spettri d'arcani mondi

Cercano al di la'  
L'al di qua'

(Chorus)  
(Moonlight)  
Take my emotion now  
(Moonlight)  
Never forgive me

(Moonlight)  
Romantic shade of the  
(Moonlight)  
May you reflect  
The crystalline glare of my fate

[Solo]

(Chorus)  
(Moonlight)  
Take my emotion now  
(Moonlight)  
Never forgive me

(Moonlight)  
Romantic shade of the  
(Moonlight)  
May you reflect  
The crystalline glare of my fate

(Moonlight)  
Take my emotion now  
(Moonlight)  
Never forgive me

(Moonlight)  
Romantic shade of the  
(Moonlight)  
May you reflect  
The crystalline glare of my fate
