"winds of destiny"

Day has gone but I'm still here with you
my sweet rose my green hills
beloved sea, lakes and sky
beloved mother earth
Silent land erase my thoughts
I wanna lose myself in you, all in you
caress me and my soul while I close my eyes
On wings of destiny
through virgin skies
to far horizons I will fly
Dear peaceful land, dear mother earth
caress my soul while I close my eyes
On wings of destiny
through virgin skies
to far horizons I will fly
