### "A Genius Who Believes"

A secret only known by an old scientist  
No one would dare to believe  
A masterplan to reach for the outer space  
Is it insanity or genius?

They'd laugh and they'd never want to follow  
No one would dare to trust  
They quickly were proven wrong all he said was true  
His ship will reach the stars

House or work  
A dream on his mind  
He'd never stop until he'd succeed

It's the dream of a man who wants to reach the stars  
A genius who believes  
The will of this man's unbreakable  
He's a genius who believes

His plan quickly leaked then it brought jealousy  
A scheme was to expect  
The envious were prime to get his work for free  
Now who will betray?
