Hear the silence of the winds  
making your own destiny  
go and face the mirror of their sin  
Only brave hearts found the way  
breaking all the dragon's spell  
cross the Argon's glade with heart in hand

Land of immortals I wait for my day  
to reach the wisdom of your skies  
Land of immortals you must belong  
to me from here to eternity

And between Elgard's hills  
near the ancient ruins of Kron  
you will face the trick of the old dwarf  
To obtain the second key  
you have to cross them bloody sea  
where the thirst of Tharos never ends

Land of immortals I wait for my day  
to reach the wisdom of your skies  
Land of immortals you must belong  
to me from here to eternity

Holy force of wisdom  
spread through all the air  
I shall breathe you forever  
to end this epic holy quest  
My way will be hard  
but I would do all  
to reach the valleys  
where true heroes ride  
beyond the ivory gates

Land of immortals I wait for my day to  
reach the wisdom of your skies  
Land of immortals you must belong to me  
from here to eternity
