Liber scriptus
Liber proferetur
In quo totum continetur

Liber scriptus
Liber proferetur
Unde mundus judicetur

Liber scriptus
Liber proferetur
In quo totum continetur

Liber scriptus
Liber proferetur
Unde mundus judicetur

Lacrimosa dies illa
Qua resurget ex favilla

Rites of brutal violence
Tears of broken innocence
Chaos and intolerance
Cum resurget, pater lacrimarum

Seven raging epic wars
Seven towers bleeding stone
Seven sins for his reborn
Cum resurget, pater tenebrarum

For the children fallen
For the dreams you've stolen
For the smile of women
For respect and love

May the flame of angels
Clash your hordes of demons
Stop your resurrection
Burn your fallen soul

Libera nos

Reign of terror

In the shade of evil rhymes
Pain, hate, blasphemy
Written with the angels' cry
Cum resurget, pater lacrimarum

One more day to serve the light
One more chance to honor life
One more hope for Earth and sky
Cum resurget, pater tenebrarum

For the children fallen
For the dreams you've stolen
For the smile of women
For respect and love

May the flame of angels
Clash your hordes of demons
Stop your resurrection
Burn your fallen soul

Reign of terror

In your last cry, I died
For your new smile
I'll face hell

For the children fallen
For the dreams you've stolen
For the smile of women
For respect and love

May the flame of angels
Clash your hordes of demons
Stop your resurrection
Burn your fallen soul
