Now it ain't like me to talk about the way my woman
makes me feel
But since you asked and I've got a minute well
gentlemen here's the deal
If I told it's as good as this or that you might
misunderstand
So let me give you all a little idea of what's it's better
than

It's better than whiskey when you're cold
Better than your favorite song on the radio
Better than a feather bed when you've been loving all
night
And you've got to get some rest

Better than punching out on payday
And cruise control down the highway
It's a whole lot better than it used to be
And it used to be the best

Now I've seen love that started to fade soon after that
first kiss
But let me make it clear right now that ain't the case
with this
It started out good, started getting better it never has
slowed down
And it's better than a bunch of you buying me another
round

It's better than whiskey when you're cold
Better than your favorite song on the radio
Better than a feather bed when you've been loving all
night
And you've got to get some rest

Better than punching out on payday
And cruise control down the highway
It's a whole lot better than it used to be
And it used to be the best

Lordy, Lord I love that woman of mine
And what we've got has got to be one hundred times

better than

It's better than whiskey when you're cold
Better than your favorite song on the radio
Better than a feather bed when you've been loving all
night
And you've got to get some rest

Better than punching out on payday
And cruise control down the highway
It's a whole lot better than it used to be
And it used to be the best

Yeah, it's a whole lot better than it used to be
And it used to be the best
