"Dream the Rest"

Visit "[Dream the Rest](#)" on MotoLyrics.com

I've not a man of vision, it's never been my strength
They see them bigger picture although chasin' after
dreams
But every time I close my eyes I see me holding you
And if you can dream the rest I'll make it come true

Just make a wish you can't miss, tell me every desire of
your heart
Count on me and I will be your falling star
I can take you to where forever begins, from there I
promise you
If you can dream the rest I'll make it come true

I don't look much past tomorrow, all I need I have today
I'd love to see the future but my heart gets in the way
I only live for the moments, the ones when I'm with you
But if you can dream the rest I'll make it come true

Just make a wish you can't miss, tell me every desire of
your heart
Count on me and I will be your falling star
I can take you to where forever begins, from there I
promise you
If you can dream the rest I'll make it come true

I can take you to where forever begins, from there I
promise you
If you can dream the rest I'll make it come true
Yeah, you just dream the rest I'll make it come true
