Circles, my head is going round in circles  
My mind is caught up in a whirlpool, draggin' me down.

Time will tell if I'll take the homeward track  
Dizziness will make my feet walk back, walk right back  
to you.

Everything I do, I think of you  
No matter how I try, I can't get back

These circles, leading me back to you

Round and around and around and a...

round and round like a fool I go  
Down and down in the pool I go  
Draggin' me down

Just one thing could kill the pain of losin' you

But it gets me so dizzy that I'm walkin' right back again  
Back to you

Time will tell if these dreams are near his plan  
Though I left I'm comin' back  
Comin' on back to you

Down and down in the pool I go  
Draggin' me down
