"Hit The Streets"

We're feeling really mean
And we're looking for a fight tonight,
All right!
Out of the light and into the Night
So prepare, and beware,
We'll hit the streets tonight!

Screaming down the freeway
Everywhere poseurs in sight.
" I can't believe the way
Some of these guys dress,"
We're going to meet the crew
And teach those poseurs how to die.
We'll hit the streets tonight!

Make up glarin' and their hair is flarin',
Up high!
Are these chicks or are these guys?
Hell if I know.
Double - Bass a thumpin'
And a Marshall 's pumping.
We rage! They pray!
We'll hit the streets tonight!
