There's only one of you parked on a bridge  
Wondering if the radio is playing  
If you're crazy or there's voices in your head  
You've got a heart so big goes all the way to California  
Where the water hits the land I hope your folks'll  
understand  
The city is dark but we're not scared  
Wrapped up in each other  
Making loving out of nothing like the air supplier said  
You've got me so far gone I'm past Governor's Island  
I'm past the Verrazano Bridge I'm past the Verrazano  
Bridge  
You come and you glow and you hum and you hover  
I cannot believe that you're my lover  
You come and you glow and you hum and you hover  
I cannot believe that you're my lover  
I cannot believe  
Later in a room picture of a girl  
Doesn't do her justice what it does is make you realize  
You ought to be with her  
I'm talking 'bout right now I mean this instant  
When the hip'll meet the hand I hope your folks'll  
understand  
You come and you glow and you hum and you hover  
I cannot believe that you're my lover  
You come and you glow and you hum and you hover  
I cannot believe that you're my lover  
I cannot believe that you're my lover  
I cannot believe that you're my lover  
You're my lover  
You're my lover  
You're my lover
