"Land Of Oppression"

You think you're free but it's a lie
Take a look into my eyes
You might be shocked by what you see
You may never be set free

Promises that never come
We learn to live behind the gun
That is what they like to see
Oppression of society
In my mind it's getting clear
The tolling bell is all I hear
Action now is what we need
Band together plant the seed

Once there was freedom
In thought and in deed
For rejoicing and laughter
Fulfilled all our needs
But the day came when
Fortresses spread 'crossed our lands
And replacing our freedom
With chains in their hands

Time to break the chain
The power we have gained
There's no stopping now
The forces gather round

We'll never take this lying down
Burn their kingdom to the ground
Unleash the power from within
Freedom will be ours again
