Opened the curtains & let in the light  
Shadows are gone from under my eyes  
Fixed my hair put some make-up on  
Return to the world, turn the TV. on

I think it's time to pick up the phone, dial my friends  
see if they were home  
We met at the bar & I smile, for the first time in  
months, like a child.

We laughed and we joked, we drank & we smoked  
Looked in the mirror and started to see, someone that  
resembles me  
We danced and we screamed, rode home in a  
limousine  
All the smoke suffocating me is clearing away, finally I  
can breathe

I didn't think of you once today, like you never existed  
like you faded away  
Just like a butterfly, I'm gonna let you fly away  
Set you free and watch you fly away

Early morning turn the key in the door  
I don't picture your face, standing there anymore  
I kind of like being alone, Seems that I found a place of  
my own  
I laid on the roof and looked at the stars  
Wrapped in the moonlight , the people & cars  
I feel this peace deep inside, for the first time in  
months, I'm alive.

The ghosts of you & me, gone from me memory  
Suddenly bloods running through my veins, cut myself  
loose from the shackles & chains  
Some things aint meant to be, see where the wind gon'  
carry me  
All the fog that clouded me is starting to clear, finally I  
can see

I didn't think of you once today, like you never existed  
like you faded away

Just like a butterfly, I'm gonna let you fly away  
Set you free and watch you fly away

Lately I've been through so much change, but I'm sure  
I'll find my way home again  
Watching a part of me slowly die but I'm gonna be  
okay, gonna be alright  
Nothing in this life stays the same and it gonna take  
time to heal the pain  
Watching a part of me slowly die, but I'm gonna be  
okay, gonna be alright
