Hook:

I don't wanna hear no more he say she say
I'm sick and tired of the games that we play
It seems like something's always getting in your
way...when you going to be a man?

Verse:

Didn't see you last night, said your car wouldn't start.
You didn't come home last night (felt like a bullet
through my heart)
Say you'll pick me up at nine, you have me ready
waiting by the door. It's gone twelve you didn't call (like
a bullet through my heart)

Bridge:

If I hurt you it's coz you hurt me.
If I play you it's coz you play me
x2

HOOK

Verse:

Baby loving you hurts, will me and you ever work? So
much better I deserve (like a bullet through my heart)
The lies, the games and the fights, all the tears that
I've cried. Can this mess be put right
