CHORUS:

Someone always got something to say, in my business
everyday. They put me down in everyway (put me down
in everyway)

Watch me turn my back and walk away, don't phase me
coz one day they'll pay. What it matter anyway? (What it
matter anyway?)

Coz if it's me against the world (won't stop this girl)I got
this, you can't stop this

If it's me against the world (won't stop this girl)I rock
this, you can't knock this.

VERSE

You were never down with me, never believed in me,
didn't see all that I can be.

I don't owe you anything, you should have been there
when, I was all alone back then.

BRIDGE

You may think I'm not that strong (not that strong) but
you can't keep me down for long (down for long) You
may think I won't hold on (I won't hold on) but I'ma still,
I'ma still keep singing my song.

CHORUS

VERSE

I'ma do just as I please, f*ck your negativity
This fire burns inside of me.

You underestimated me, my strength you won't
believe. Maybe your hate is what I need.
